## FISCAL ANALYSIS

### ASSUMPTION

#### HJR 27 - Right to Hunt and Fish:

Officials from the **Department of Conservation (MDC)** assume this proposal could result in litigation in enforcement matters, challenging the commission's authority to manage and regulate. MDC assumes an unknown fiscal impact from this proposal.

**Oversight** assumes MDC is provided with core funding to handle a certain amount of activity each year to the Conservation Commission fund. **Oversight** assumes, upon voter approval, MDC could absorb the costs related to this proposal.

Officials from the **Office of Secretary of State (SOS)** assume each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

SOS states, unless a special election is called for the purpose, Joint Resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2, RSMo, requires the state to pay the costs. The cost of the special election has been estimated to be \$7.1 million based on the cost of the 2012 Presidential Preference Primary. This figure was determined through analyzing and totaling expense reports from the 2012 Presidential Preference Primary received from local election authorities.

The SOS is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's Office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session.

SOS states funding for this item is adjusted each year depending upon the election cycle with \$1.3 million historically appropriated in odd numbered fiscal years and \$100,000 appropriated in even numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot.

ASSUMPTION (continued)

SOS states in FY 2013, at the August and November elections, there were 5 statewide Constitutional Amendments or ballot propositions that cost \$2.17 million to publish (an average of \$434,000 per issue). Therefore, the Secretary of State's Office assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.

**Oversight** has reflected in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2014. This reflects the decision made by the Joint Committee on Legislative Research, that the potential cost of elections should be reflected in the fiscal note. The next scheduled general election is in November 2014 (FY 2015). It is assumed the subject within this proposal could be on that ballot; however, it could also be on a special election called for by the Governor. Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2014.

Officials from the **Department of Natural Resources** assume the proposal would not fiscally impact their agency.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Upon voter approval, this proposed constitutional amendment guarantees a citizen's right to hunt, fish, and harvest wildlife and the use of traditional devices and methods to exercise the right. The control, management, restoration, conservation, regulation, and administration of the laws regarding the state's bird, fish, game, forestry, and wildlife resources is vested in a conservation commission as provided in Article IV, Section 40, of the Missouri Constitution. Public hunting and fishing must be a preferred means of managing and controlling wildlife. These provisions cannot be construed to modify any laws regarding trespassing or property rights.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
